What We Do

Simply put: **We help our clients implement HIT solutions in a way that adds value to the healthcare they deliver every single day - from day one.**

Today's HIT solutions have remarkable potential to improve the way healthcare services are delivered. However, there is nothing simple about these technologies. If implemented poorly, they can disrupt nearly every corner of care in a facility or practice.

We are in this business to make sure every client reaches the goals for his/her HIT investment. We have seen firsthand the positive gains HIT solutions have created for grateful practitioners. Our reward is putting the power of information technology to work to improve patient care and the business of running a healthcare organization

We have a passion for healthcare. Let us put it to work for you.

With over 30 years in the IT business, and 15+ years experience in health care settings, RTC offers wisdom and objectivity in evaluating needs, possibilities, strategies, vendor selection, and project implementation.

Let RTC help you chart your HIT course. We keep you in charge of the journey.
